Construction Trades

Using business, industry and labor guidelines, the Construction Trades program provides you with the skills, knowledge and attitude to become employable in the construction trades industry. Coursework includes training in the use of hand and power tools, safety practices, drafting and design, blueprint reading, estimating materials, framing skills, finishing skills, safety and cabinet and furniture construction. Construction Trades is accredited by the Associated General Contractor's Association (AGC). Upon successful completion of the program, you are prepared to take the state certification tests. You are also prepared to work in the field of construction or become in apprentice in a specialty area.
